PROFILE

Computer Science professional specializing in artificial intelligence, machine learning, and full-stack development. Proficient in Python, Java, React, Spring Boot, PyTorch, and data visualization with Power BI and SQL. Experienced in developing computer vision applications, web development projects, and interactive dashboards. Strong foundation in deep learning, database management, and scalable application development with proven expertise in building end-to-end solutions across diverse technology domains.

EDUCATION

Abdul Kalam Technical University, Lucknow Aug 2022 – July 2026 (expected)

B. Tech in Computer Science(Specialisation in Artificial Intelligence and Machine Learning)

• CGPA: 8.4/10.0

Nirmala Convent Inter College, Lucknow 2022

Intermediate

• %age: 88.25/100

Nirmala Convent Inter College, Lucknow 2020

Matriculation

• %age: 94/100

INTERNSHIP

Edunet Foundation and Shell India Pvt. Ltd

July 2025 – Aug 2025

Project Intern

[Github Link](#)

[Live Link](#)

- Built a computer vision application for automated tree species identification using PyTorch and ResNet-50 architecture. Achieved 92.5% classification accuracy on dataset containing 30+ tree species through transfer learning and data augmentation. Developed an interactive Streamlit web interface with drag-and-drop functionality for real-time image classification. Created comprehensive visualization dashboard featuring confidence scoring, prediction charts, and statistical analysis tools.

PROJECTS

Web :-

Resumind

Mar 2025 - Mar 2025

AI Based Resume Analyzer

[Github Link](#)

[Live Link](#)

- Developed a full-stack web app using React 19, TypeScript, and TailwindCSS that integrates Claude AI for ATS-driven resume analysis, real-time scoring, PDF processing, and secure storage with Puter.js.

Linklytics

Apr 2025 - May 2025

URL Shortener Service like bitly

[Github Link](#)

[Live Link](#)

- Built a comprehensive URL shortening platform similar to Bitly with React frontend and Spring Boot backend. Key features include user authentication, analytics dashboard with Chart.js visualizations, click tracking, and responsive design. Implemented JWT security, RESTful APIs, and MySQL database integration.

Analytics :-

Power BI Dashboard

May 2024 - May 2025

2024 Indian Election Result Report

[Github Link](#)

[Live Link](#)

- Built an interactive Power BI dashboard for the 2024 Indian Elections using a relational data model and DAX measures to calculate KPIs like vote share, turnout, and winning margins, with drilldowns from national to constituency level for dynamic analysis.

Machine Learning :-

Content Based Recommendation System

AI-Powered Movie Recommendation System

July 2024 - July 2025

[Github Link](#)

[Live Link](#)

- Built a content-based movie recommender using Python, Streamlit, and Scikit-learn. Preprocessed movie metadata, computed similarity scores (cosine similarity), and created a web interface that suggests top 5 similar movies with poster integration (via TMDB API). Deployed as a live app.

SKILLS

- | | |
|--------------------|------------------------|
| • Python | • Spring Boot |
| • Machine Learning | • React |
| • Deep Learning | • Postman |
| • Power BI | • HTML/ CSS/ JSS |
| • SQL | • Design Understanding |
| • Java | • Problem Solving |

CERTIFICATIONS
